# 2 Point Perspective w/Pencil

In this lesson, you'll learn how to do the following:

☐ Draw using 2 point perspective

## *Geometric Shapes (5pts)*

Use the template below and a ruler to practice drawing in two point perspective. In the template, draw at least five boxes: two below, two above and one even with the horizon line.
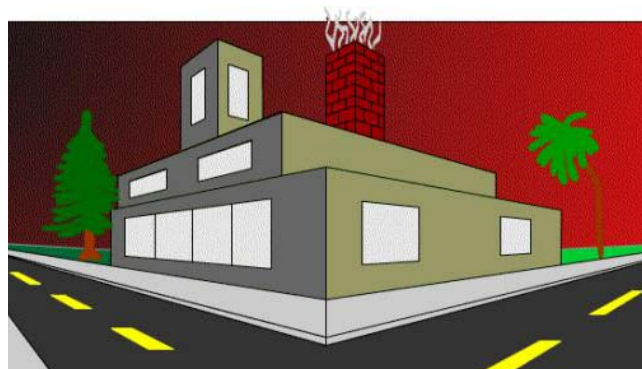

City Shapes (5 pts)

Use the template below and a ruler to practice drawing in two point perspective. In the template, draw a city with as much detail as possible.

2 Point Perspective w/Flash

In this lesson, you'll learn how to do the following:

☐ Download a template from the Sharepoint
☐ Draw in flash using the line tool
☐ Fill closed objects in Flash using the paint bucket
☐ Use keyboard shortcuts
☐ Draw in Flash using 2 point perspective
☐ Use of the pencil tool
☐ Adjust fills and lines with in the properties
☐ Adjust colors with the color mixer
☐ Curve lines and add corner points
☐ How to use the eye dropper
☐ How to publish a document

Activities

Download the 2 point perspective template from the Sharepoint to your user_share. Open the file and then save as "lastname_2point". Watch the tutorial for how to do this and complete the activities.

1. Design at least 5 objects in two point perspective. Color them in so that they show a shadow side. (**5 pts**)
2. Design a futurist or old western town. It should be a realistic city scene with buildings (**5 pts**)
3. Export both as .gif images. To turn them in, copy the **.gif** files and paste it in the Animation drop box in the drop box folder on the HTLC server. Watch the tutorial on turning in work if you don't know how to do this.

Activity02: 2 Point Perspective (16:54)
